

Special Rings in coloured Aluminium

These rings are made of coloured anodised aluminium and are suitable for larger species, such as the Anatidae.

This range includes larger rings, with internal diameters of between 13.0 mm and 27.0 mm. The colour is established annually by the C.O.M.

The initials on the rings can be customised within the standardised spaces.

Federations can request rings with their own initials and codes, guaranteed as unique and that will not be repeated.

Models in Production:

Type	Internal diameter (mm)	External diameter (mm)	Height (mm)
13	13	15	8
15	15	17	8
16	16	18	8
18	18	20	8
20	20	22	10
22	22	24	10
24	24	26	10
27	27	29	10
